

PRIMEIROS PASSOS NOS PTCs

FIRST STEPS IN PTCs

There are two ways to make money in PTC. The first is called "slow style" and the second "aggressive style".

SLOW STYLE

In slow style proceed as follows:

Start clicking ads everyday and not miss a single that is. This is crucial in the beginning because you do not have referrals. Read the Terms of Service of the site and see how many clicks are needed for you to acquire your first referrals. Typically range from 100 to 250 clicks.

When you reach 0.60 balance it's time to rent your first three mentioned. This usually takes about three months ... or more. Got a shock? I also took, but calmly, in the meantime you can already go training some more aggressive techniques. One you learn today.

At this point turn the Auto Pay. This option is available on the referrers' menu and each of these will cost you 0.30 per month. In the first month you pay for them, then they will pay for themselves, and attention paid only if the machine is turned on.

By default, you will receive per click from each 0005 above, ie:

Ads by $0.005 \times 4 \text{ ads per day} \times 3 \text{ referrals} = \$ 0.06 \text{ per day}$

Total earnings: \$ 0.06 per day (taking into account only 4 ads daily)

Keep renting referrals for 3 increments after earning money. You can rent bigger packages as you gain more money. Package referred seen in sizes of 3, 10, 20, 40, etc.

Repeat this process until you have 300 referrals. This will take several months to accomplish, and that's where most people fall off.

Referrals Clicks

Ads by $0.005 \times 4 \text{ ads per day} \times 300 \text{ referrals} = \$ 6 \text{ per day}$

Total: \$ 6 per day

Note: This example assumes that all of these are active. In reality, you will need more than 300 referrals to have 300 actives referrals.

When you reach 300 it's time to stop buying them and only keep the ones already have. Keep doing this until you have \$ 90 in your balance. Use them to make your upgrade to Gold.

Gold Member

Becoming a Gold member, your income will be listed twice.

You will get 0.01 per click instead of 0,005. In addition, you will have 0.01 in personal clicks, instead of just 0.001!

Referred clicks: $0.01 \times 4 \text{ ads per ad per day} \times 500 \text{ references} = \text{About } \$ 20 \text{ per day.}$

Personal clicks

Ads by $0.01 \times 10 \text{ ads per day} = \$ 0.10 \text{ per day}$

Total earnings:

$20.00 + 0.10 = \$ 20.10 \text{ per day.}$

At this point, it may be tempting to cash out. I do not recommend cashing out until you get at least 2,000 references.

Put this money to achieve the goal of two million referrals.

To see if PTC is legal, many people derive to earn \$ 1.00. Cool, right? Her money went on Paypal account when it should have been used to rent more referrals.

Leaping Days

Many people, especially in the beginning jump days, or not click.

This will only slow your progress and your game plan to grow.

The solution to this is to have the proper motivation. My newsletter will provide the motivation you need to stay active. If you downloaded this ebook, you can subscribe to the email below to receive free newsletters.

Aggressive Attitude

The second option for obtaining direct referreals is to use sites Downline Building.

In a nutshell, a builder downline works as follows: you subscribe to a PTC stated by me, will click by X number of days and earn credits that wake. Is it difficult? Not so, here's how.

This is the site I recommend for building your list of referrals:

Sign up, using this link:

<http://www.downlinerefs.com/?ref=celestebq>

Click in Dashboard

- Click Program Signup and you'll see something like this:

 dgklin  	 guillermosomma	 jguimond  	 skyj777  
+0 (promotor rating)	+7 (promotor	+6 (promotor	+2 (promotor

1759.20 credits (15 days)	rating) 1007.40 credits (12 days)	rating) 540.00 credits (15 days)	rating) 300.00 credits (7 days)
 garesasa  +4 (promotor rating) 78.00 credits (7 days)	 miosole  +0 (promotor rating) 2893.20 credits (120 days)	 bepi  +1 (promotor rating) 2400.00 credits (7 days)	 violaforever  +0 (promotor rating) 1808.40 credits (30 days)

-Choose a credit program that suits you. The person offering the credits is called promotor. Then you will be directed to a link to accept the agreement to clicking X number of days.

You can also click on the ads DownlineRefs. It's a good way to build your reputation within the site, and earn more credits.

Do not skip this step, your credits will be joining the credits earned in the program you have signed and will grow more than you expect.

What are credits?

On construction referreals sites , credit is not money in the way you know. Within these sites the credits are used to that at some point, you can create a program, as they call it.

Explaining better: when you get enough credits to offer

them to people click Y site, you will gain a lot of direct referrals on this site and Y, then you will make money.

So remember, you first click on the programs of other sites and advertisements of constructors downlines refs to raise credits, then create your own program to raise direct referrals.

Note: Do not go signing up to left and right in any PTC. Remember that if you sign a credit program with a promoter site Y, he will direct your referral and you will be referred to him. Moreover, bux sites do not accept more than one record.

So, just register on a sitebux if you gain something from it, ie, signing up through a promoter of programs that will divide your credits with you.

Traffic Exchange

What are traffic exchanges? It is guaranteed to win actives referreals. You browse websites, earning credits, and the credits will give you hits on your site bux. In essence, you are seeing other sites in exchange for visits to your site.

TrafficWave.com is one of the best known sites traffic exchange. They have a database with more than 700,000 members, and that means many such potential! The system is easy to use and has many tools for you to promote your sites bux.

You will need this site, please register now :

When I say "site" is not necessarily "your site", but the site of someone or some PTC site that you want to publicize.

However, you may come to have your mini-site in the future. You just browse this site and you'll find the link to your first mini-site!

I also know where you can get free banners for disclosure. I can also teach you to build your capture page.
