1. Get Cash For Surveys

Making money with online jobs is easier than you think. All you need is the right program that gives you access to the right jobs and then get access to those programs and do the work. Many survey sites out there claim to pay you, but they are scams, so you have to be careful and make sure you do not fall for these scams.

Get Cash Surveys is a membership site that allows you to make \$3,000+ a month from survey sites. What you're paying for is their membership, which allows you access their database of survey sites.

What's good about Get Cash For Surveys is that they have surveys available for nearly every single country, including Kenya, India, and even Romania. A lot of our subscribers have tried survey sites before, but not many surveys were available to them. That's why this program is good for international members.

6. Tools For Surveys

In order to fill out surveys effectively, you are going to need certain tools like Roboform. Roboform is a browser add-on software that automatically fills out online forms for you, so you don't have to do it every single time. All you have to do is download Roboform, install on your computer, and it will attach itself to your browser.

Roboform

<http://www.roboform.com/>

Just fill in your profile once, and Roboform will remember it for you, and will activate the next time you fill out a form. If you have a headache filling out forms, then this software will be a life saver, because it does all the hard work for you. It could save you 5 to 10 minutes of work, and potentially hours and hours of your time.

Malware Bytes

It's common that you're asked to download a software or game and the company will pay you money for it. But downloading third party software is very risky, you could do a lot of damage to your computer. That's why we recommend you protect your computer with anti-virus software before downloading anything suspicious.

7. Rebate Program

I understand if you are skeptical about paying money to join a program. You don't want to be scammed and end up losing money. I've been there, I have been scammed in the past, and trust me, it's no fun.

I believe in the programs that I promote, so that is why I am doing something no one else is doing. I am offering a **100% rebate program**. Whatever sign up fee you pay, I will rebate you 100% of the cost after 60 days of using the program.

This is how you qualify:

1. Sign up for one of the online jobs or paid survey programs I recommended you
2. Try the program out for 60 days - and do not chargeback or file a refund
3. After 60 days have passed, I will pay you back 100% of the sign up fee

For example, if you paid \$34 to sign up to GetCashForSurveys, try it for 60 days. Then email me and I will pay you back the \$34 just for listening to me. During that time, you can still qualify for surveys and make money, or you can choose to do nothing with it. Either way, you will not lose anything, with this 100% rebate.

One last note: it is important to stay up to date with online jobs. Our job newsletters will keep you informed of any information about online jobs, as well as free bonuses we give from time to time. So if you are not signed up to the newsletters, sign up today.

That's it... I've given you all the links and tools you need to succeed with earning from online jobs. Just join the sites mentioned above, you don't need to join all of them, just join at least one so you can begin making some money right away.
